

## A New Frontier on Cancer Invasion and Metastasis Research 2022

Guest Editors:

**Prof. Dr. Wen-Chiuan Tsai**

Department of Pathology, Tri-Service General Hospital, National Defense Medical Center, Taipei, Taiwan

**Prof. Dr. Ying Chen**

Department of Biology and Anatomy, National Defense Medical Center, Taipei, Taiwan

**Dr. Chen-Liang Tsai**

Division of Pulmonary and Critical Care Medicine, Department of Internal Medicine, Tri-Service General Hospital, National Defense Medical Center, Taipei, Taiwan

Deadline for manuscript submissions:

**closed (15 January 2023)**

### Message from the Guest Editors

This Special Issue, "A New Frontier in Cancer Invasion and Metastasis Research 2022", will collect research articles covering the molecular pathogenesis and clinical implications of cancer progression. The topics will include, but are not limited to: molecular cancer research, signaling targets underlying cancer migration and invasion, the regulation of the tumor microenvironment, and novel cancer drug development in animal models. To closely reflect the milieu of the cancer microenvironment, studies regarding clinical samples will be encouraged, including patient-derived xenograft animal models, biomarker analyses of patient plasma or other body fluids, and tumor-derived microRNA or extracellular vesicles. We also invite pulmonary oncologists and neuropathologists as Co-Editors to broaden the scope of the current issue. Please kindly note that purely clinical studies are out of the scope of this Special Issue. Submissions must include as much molecular biology research as possible.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maurizio Battino

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
