Message from the Guest Editors

Dear Colleagues,

Skin cancer includes various types of skin tumors, such as melanoma, basal cell and squamous cell carcinomas, cutaneous lymphomas, and other rare diseases, which have very different etiologies, incidences, therapeutic approaches, and outcomes. The incidence of skin cancers is steadily increasing, representing a significant public health concern. In recent years, significant efforts have been made to develop effective therapeutic options, although many questions remain open. We welcome research contributions focused on understanding the molecular pathways, biomarkers, oxidative stress, and skin microenvironment involved in the onset and progression of skin cancers. Exploring the mechanisms of etiopathogenesis may contribute to developing new and more effective therapeutic approaches for the prevention and treatment of skin cancer. Note that pre-clinical and clinical contributions with biomolecular approaches will also be considered.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. José L. Quiles

Department of Physiology,
Institute of Nutrition and Food
Technology “Jose Mataix”,
Biomedical Research Center,
University of Granada, Avda.

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
