University of Missouri, Columbia,  
MO 65211, USA

Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### Message from the Guest Editors

Dear Colleagues,

One of the fundamental questions in biology is how plants, the sessile organisms, associate with different microbes that pose either pathogenesis, mutualism, or commensalism, as well as microbiota. Indeed, significant progress over the past thirty years has been made on the plant immune responses against pathogenic threats and the common signaling pathway for symbiotic interaction between plants and mutualistic microbes. However, both the ability of plants to distinguish friends from foes and the evolution of each specific type of plant–microbe interactions are unclear. This issue, entitled “Plant–Microbe Interactions”, will address questions including the molecular basis of plant–microbe interactions and the evolution of plant–microbe interactions.

Prof. Dr. Yangrong Cao

Prof. Dr. Hari B. Krishnan

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
