Deadline for manuscript
submissions:

closed (30 April 2023)

Message from the Guest Editor

As life expectancy grows in society as a result of medical and social advances, the interest in knowing the mechanisms by which humans age increases. There is no doubt that the study of aging is multidisciplinary and can be approached from different points of view. The objective of this Topic Collection is to bring together investigations dedicated to investigating the phenomenon of aging from a molecular point of view, without establishing limits in terms of focus.

The “Molecular Aspects of Aging” collection welcomes original research and review articles related to the basic biology of aging, bioenergetics, redox biology, and the study of biomarkers; the effect of diet on aging and longevity; the interaction between aging and its associated diseases (e.g., Alzheimer’s); and any other aspects related to aging from a molecular perspective.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
