Message from the Guest Editor

This Special Issue on “The Molecular Brain and its Health” aims to gather papers addressing the abovementioned topics, in particular the underlying molecular biological mechanisms affected by the curative agents in question. Obviously, each stipulated effect in and by itself presents its own complexity. Thus, we hope that this Special Issue can bring together these singular molecular biological mechanisms. As research progresses, computational approaches also integrate the various functional pathways that will become important to conceive.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
