Molecular Breeding for Abiotic Stress Tolerance in Crops

Guest Editor:

Dr. Mario A. Pagnotta

Department of Agricultural and Forest Sciences, Tuscia University, Via S. C. de Lellis, snc, 01100 Viterbo, Italy

Deadline for manuscript submissions:

31 May 2024

Message from the Guest Editor

This Special Issue attempts to cover all issues relating to studies of plant response to abiotic stresses including physiology, biochemistry, cell biology and molecular biology aspects, as well as literature reviews of subjects related to this field. The paper could be addressed on the experimental, theoretical, and computational methodologies used in molecular breeding across the different plant species including crops and their wild relatives.

Dr. Mario A. Pagnotta *Guest Editor*

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
