submissions:

closed (31 August 2024)

Message from the Guest Editor

Pharmaceutical research such as systems with the controlled, sustained, or targeted release of various biologically active compounds (drugs, enzymes, microorganisms, cells, and food supplements), represent a field of science that progresses rapidly through the cumulative contributions of chemists, biochemists, pharmacologists, doctors, and nutritionists.

The increased interest shown by the scientific community regarding polymer materials based on synthetic or polysaccharides represents a consequence of their remarkable characteristics as well as the diverse necessities in the medical and pharmaceutical fields. For these reasons, this Special Issue, entitled "Advances in Polymers and Polysaccharides in Delivery Systems", aims to offer researchers in the field the opportunity to share the latest achievements, insights, and experiences in the development and applications of polymeric delivery systems based on synthetic polymers and/or polysaccharides.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
