Gifu, Japan

Deadline for manuscript  
submissions:

**closed (31 October 2020)**

### Message from the Guest Editor

We all know that over half of mammalian proteins are glycosylated. Glycans on proteins and lipids, having a wide variety of structures, play pivotal roles in various biological events. In the nervous system, structurally unique glycans (e.g., HNK-1 epitope, polysialic acid, and so on) are expressed, and a number of studies have revealed that neural glycans are critically involved in neural development, synaptic plasticity, and development and aggravation of various neural disorders. However, not all functions of these neural glycans have been clarified, and little is known about how expression of these neural glycans is regulated. In this Special Issue, we deal with various types of neural glycans which have physiological and pathological functions in the nervous system. I believe that the papers in this issue will provide readers with new insights into the mechanisms of how neural glycans function and are regulated.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. José L. Quiles

Department of Physiology,  
Institute of Nutrition and Food  
Technology “Jose Mataix”,  
Biomedical Research Center,

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
