Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editors

The definition of what Parkinson's disease (PD) is and our understanding of how it evolves have changed over the last few decades. Well-known motor dysfunctions are now recognized to be associated with several non-motor symptoms characterized by cognitive deficits, depression, sleep disorders, and olfactory disturbances. Moreover, non-dopaminergic neurons, including serotonin, noradrenaline, and different types of glial cells, factors such as alpha synuclein and nuclear transcription factors, and genetic mutation have raised the hypothesis that PD may be not one well-defined entity but several different diseases. This Special Issue on “Neurobiology of Parkinson's Disease” aims to provide an up-to-date overview of the molecular origins of PD motor and non-motor features.

PD will continue to evolve over the years; therefore, this Special Issue may provide an important and new perspective of the molecular basis of this disease.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. José L. Quiles

Department of Physiology,  
Institute of Nutrition and Food  
Technology “Jose Mataix”,  
Biomedical Research Center,  
University of Granada, Avda.  
Conocimiento s/n, 18100 Armilla,  
Granada, Spain

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
