Neuroscience, and advanced  
diagnostics, Institute of Clinical  
Biochemistry and Clinical  
Laboratory Medicine

Deadline for manuscript  
submissions:

**closed (31 May 2022)**

### Message from the Guest Editors

Dear Colleagues,

Neurodegenerative diseases (NDs) are a heterogeneous group of complex diseases, characterized by neuronal loss and progressive degeneration of different areas of the nervous system. NDs represent a major health problem worldwide, with an increasing incidence rate. Although the exact pathogenesis of NDs remains unclear, a complex interaction between genetic, epigenetic and environmental factors has been proposed. To date, no effective therapeutics have been developed to slow, halt or prevent any NDs. Thus, information on the molecular mechanisms underlying the pathogenesis of NDs is strongly sought after.

The aim of the current Special Issue is to describe the advances in the field of NDs, including Alzheimer's disease, multiple sclerosis, amyotrophic lateral sclerosis and Parkinson's disease, with a focus on the underlying pathobiological mechanisms.

We would like to invite you to submit original research articles and reviews on, but not limited to, new findings on molecular key players, pathomechanisms, risk factors, biomarkers and therapeutic targets of NDs.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. José L. Quiles

Department of Physiology,  
Institute of Nutrition and Food  
Technology “Jose Mataix”,  
Biomedical Research Center,

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
