

Application of Bio-Molecular Sciences in Peritoneal Dialysis 2.0

Guest Editor:

Dr. Silvio Borrelli

Unit of Nephrology, Department of Advanced Surgical and Medical Sciences, University of Campania "Luigi Vanvitelli", Piazza Miraglia, 80138 Naples, Italy

Deadline for manuscript submissions:

closed (30 November 2022)

Message from the Guest Editor

The prevalence of End Stage Kidney Disease (ESKD) is growing in these last years. Peritoneal Dialysis (PD) is the most popular home dialysis. The main aim of this special issue of is to provide an update about current knowledge and future perspectives for the treatment of metabolic alterations occurring in ESKD patients. More specifically, we will focus on the recent promising insights about PD that may improve further dialysis efficacy, reducing local and systemic side effects of this treatment.

Potential Topics:

- Sodium and water in peritoneal dialysis: Mechanisms and solutions
- Hyperkalemia in End Stage Kidney Disease: the role of novel therapies.
- Mineral Bone disease in End Stage Kidney Disease: “Klotho and his brothers”.
- HIF stabilizers in End Stage Kidney Disease: “every promise is a debt”
- Fibrosis of peritoneal membrane: target of new therapies in peritoneal dialysis?
- Glucose load and Insulin-sensitivity in peritoneal dialysis
- MicroRNAs in dialysis: What future?
- Proteomics in End Stage Kidney Disease: is there room for it in Nephrology?

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
