Gu, Daegu 701-300, Korea

Deadline for manuscript
submissions:

closed (27 December 2022)

Message from the Guest Editor

After emerging the immuno-oncologic therapies since 2010s, a new era has opened for the treatment of cancer. These therapies aim to recover immune surveillance function of immune cells and make the functional immune cells kill cancers. Furthermore, the most of immuno-oncologic therapies involve monoclonal antibodies or cell therapy. There were only a few research studies about immuno-oncologic therapies using natural products and phytochemicals.

However, many immunity-enhancing materials and methods have been developed and used in natural products and phytochemicals for a long time. This Special Issue invites researchers to contribute reviews and original research reports of their recent work on the natural products and phytochemicals in anti-cancer immunologic therapy.

This Special Issue will include recent advances in the natural products and phytochemicals in anti-cancer immunologic therapy, including on the following topics: targeting the immune checkpoints; modulating tumor microenvironments; combination therapy with immuno-oncologic natural products, phytochemicals and anti-cancer drug.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
