2. Regenerative Medicine Division, CHU de Québec—Université Laval Research Centre, Québec, QC G1J 1Z4, Canada
3. Université Laval Research Center on Experimental Organogenesis/LOEX, Québec, QC G1J 1Z4, Canada

Deadline for manuscript
submissions:

10 December 2024

Message from the Guest Editor

Dear Colleagues,

The clinical need to replace wounded, damaged or pathological tissues and organs has fostered the development of tissue engineering and cellular therapies. Innovative research on biomaterials, extracellular matrix and cells has resulted in tissue substitutes or cell products that are designed to improve, repair or replace several tissues and organs. This Special Issue will gather studies on the recent advances in this area. It will feature research that reports such progress, including fundamental studies on reconstructed tissues in vitro or translational studies and pre-clinical testing in vivo.

Prof. Dr. Lucie Germain

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
