Microbiology, Julius-Maximilians-  
Universität Würzburg, Josef-  
Schneider-Str. 2, 97080  
Würzburg, Germany

### **Dr. Joanna Evans**

The Francis Crick Institute, 1  
Midland Road, London NW1 1AT,  
UK

Deadline for manuscript  
submissions:

**closed (31 July 2024)**

### **Message from the Guest Editors**

*Mycobacterium tuberculosis* (*M.tb*) caused over 10 million cases of tuberculosis (TB) and 1.3 million deaths in 2022. The current TB vaccine, a live attenuated form of *M. bovis* named *M. bovis* Calmette–Guerin (BCG), provides insufficient protection. In addition, the emergence of multiple and extremely drug-resistant strains of *M.tb* is a growing problem. Novel vaccines and drug therapies are urgently required. The primary host cell of *M.tb*, the macrophage, serves as the first line of defense. Multiple pattern-recognition receptors sense mycobacterial molecular patterns, triggering intracellular signaling cascades and induction of proinflammatory cytokines, chemokines, and antimicrobial molecules. Macrophage-derived cytokines such as tumor necrosis factor, interleukin-12, IL-1 $\beta$  and IL-18 are critical for host defense against tuberculosis. Adaptive responses, including antigen-specific T cells, are critical in controlling the growth of *M.tb* by producing interferon-gamma, activating macrophages, and orchestrating granuloma formation.

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
