2. Institute for Clinical and Biomedical Research (iCBR), Faculty of Medicine, University of Coimbra, Azinhaga de Santa Comba, Celas, 3000-548 Coimbra, Portugal

Deadline for manuscript submissions:

20 September 2024

Message from the Guest Editor

Dear Colleagues,

The last decades have been marked by an increased prevalence of noncommunicable diseases such as cardiovascular disease. In obesity, the major excessive accumulation of fat can lead to the release of many adipokines and pro-inflammatory cytokines. This Special Issue aims to discuss new insights into oxidative stress and inflammation in the pathophysiology and treatment of cardiovascular diseases. Studies emphasising the strong crosstalk between oxidative stress, inflammation, and CVD, and various approaches to the prevention of redox/inflammatory biological impacts, are welcome. Additionally, we encourage research on major risk factors, the different mechanisms underlying the disease pathophysiology, and the evaluation of the therapeutic efficacy of novel pharmacological approaches in cellular and rodent models of disease as well as in humans, from a translational perspective.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
