RNA Regulatory Networks

Guest Editors:

Prof. Dr. Francisco J. Enguita

Faculdade de Medicina, Instituto de Medicina Molecular, Universidade de Lisboa, Lisboa, Portugal

Prof. Dr. John Mattick

Green Templeton College, University of Oxford, Oxford, UK

Deadline for manuscript submissions:

closed (31 August 2020)

Message from the Guest Editors

This Special Issue will welcome scientific contributions and critical reviews analyzing the role and biological functions of RNA-centred regulatory networks in the context of development, brain function, cell physiology, and human disease

We will also collect papers from The 3rd International Symposium on Frontiers in Molecular Science—RNA Regulatory Networks (ISFMS 2019), organized by Universidade de Lisboa, which will be held in Lisbon (Portugal) from 26–28th June 2019. Conference participants can receive a 20% discount on the publishing fees.

This meeting will analyze the centrality of RNA regulation in biological processes and human disease, and will constitute an excellent opportunity for the interchange of ideas and the presentation of new scientific developments in the field. It will consider the many dimensions of RNA regulation in development and disease, RNA structure-function relationships, the mechanisms by which plasticity is introduced, and the role of RNA in transgenerational communication.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
