Message from the Guest Editors

Dear Colleagues,

Recent advances in the imaging system, such as enhanced depth imaging, swept-source optical coherence tomography, and ultra-widefield indocyanine angiography, have broadened our understanding of the role of choroid in many retinal and choroidal diseases. The association of choroidal changes with retinal and macular diseases has been actively studied in recent years, along with the advancement in the imaging system of the fundus. This Special Issue aims to collect research articles, comprehensive reviews, or short communications on, but not limited to, the following topics:

Molecular research in choroidal disease

Age-related macular degeneration and pachychoroid in association with choroidal change

Diabetic retinopathy and other retinal vascular diseases in association with choroidal change

Inherited retinal disease in association with choroidal change

Keywords:

retinal disease; choroid; choroidal vessel; age-related macular degeneration; diabetic retinopathy; pachychoroid; macula; aqueous humor; vitreous body; intraocular molecules; cytokines; interleukins; VEGF

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
