

RNA Editing in Plant Genomes: 40th Anniversary

Guest Editor:

Prof. Dr. Xiaojun Nie

College of Agronomy, Northwest
A&F University, Xianyang 712100,
China

Deadline for manuscript
submissions:

closed (31 March 2024)

Message from the Guest Editor

RNA editing is a conserved post-transcriptional modification mechanism in which base changes or modifications occur when DNA is transcribed into an RNA molecule. Together with alternative splicing (AS), the RNA editing process provides an indispensable approach for enriching genetic information and diversifying transcriptomes. To celebrate the 40th anniversary of the discovery of RNA editing, the release of a Special Issue, “RNA Editing in Plant Genomes: 40th Anniversary”, is being planned for IJMS, with the aim of including papers concerning novel research data and timely review articles focusing on the study of RNA editing in plant organelles, including, but not limited to, the discovery, functional validation and evolution of RNA. We also welcome related study on plant nuclear genomes, as well as novel methods, software and technology papers covering any related topics.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
