Deadline for manuscript
submissions:

20 October 2024

Message from the Guest Editor

Dear Colleagues,

topological materials hold fundamental scientific importance and have the potential to impact various applications, including spintronics, low-dissipation electronics, and topological quantum computing, by utilizing topologically protected spin-polarized electronic states with linear energy–momentum dispersion at the edge or surface of the material.

This Special Issue of the International Journal of Molecular Sciences focuses on “Topological Nanomaterials: Synthesis, Properties, Application”, and welcomes both original research articles and review papers that deal with the molecular mechanisms underlying “the synthesis of topological nanomaterials and nanodevices based on topological nanomaterials”. This Special Issue will be focused on the development of new synthetic methods and approaches, together with the preparation of molecular- or materials-based products that have practical value or that extend our conceptual understanding of chemical or material systems.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
