Deadline for manuscript submissions:

**closed (31 October 2024)**

### Message from the Guest Editors

Dear Colleagues,

Over the last two decades, plant bioactive compounds have been reported to confer beneficial health effects, such as antioxidant, anti-inflammatory, anti-cancer, anti-hypertensive, hypoglycemic, lipid-lowering, and metabolic effects, among others.

Currently, there is a big increase in modern society lifestyle-related diseases, which are characterized by the loss of control of the antioxidant and immune systems, as well as metabolic processes. Thus, plant bioactive compounds that are capable of modifying or controlling these factors could be suitable candidates to develop plant-based functional food in health promotion.

Therefore, this Special Issue of International Journal of Molecular Sciences, entitled “Health Properties of Plant Bioactive Compounds: Immune, Antioxidant and Metabolic Effects 2.0”, welcomes the submission of original articles or reviews that can improve the knowledge about the beneficial health effects of vegetable compounds, such as immunomodulation, antioxidant, and metabolic regulation.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
