## Zebrafish as a Model in Human Disease

Guest Editors:

**Dr. Andrea Vettori**

Department of Biotechnology,  
University of Verona, 37134  
Verona, Italy

**Dr. Nicola Facchinello**

Department of Pharmacy and  
Biotechnology, Università degli  
Studi di Bologna, Bologna, Italy

**Dr. Marco G. Schiavone**

Department of Molecular and  
Translational Medicine, Zebrafish  
Facility, University of Brescia,  
25123 Brescia, Italy

Deadline for manuscript  
submissions:

**closed (28 January 2023)**

### Message from the Guest Editors

This Special Issue on “Zebrafish as a Model in Human Disease” welcomes original investigations as well as concise review manuscripts focusing on the application of the zebrafish organism to model disease and provide new insight into disease mechanism and therapy. Understanding and fighting diseases require the right tools. Some aspects of disease biology and treatment, such as tissue homeostasis, interactions between cells and their microenvironment, and response to drugs, cannot be fully recapitulated in vitro. The zebrafish continues to fascinate the research community and represents an ideal model for the in vivo study given its transparency, high manipulability, versatility and availability of a range of genetic tools (mutant, transgenic lines and biosensors), enabling researchers to answer key biological questions at a whole-organism level.

## Editor-in-Chief

### Prof. Dr. José L. Quiles

Department of Physiology,  
Institute of Nutrition and Food  
Technology “Jose Mataix”,  
Biomedical Research Center,  
University of Granada, Avda.  
Conocimiento s/n, 18100 Armilla,  
Granada, Spain

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
