Curcumin, Curcuminoids, and Their Metalorganic Derivatives in Human Health

Guest Editors:

Prof. Dr. Raul G. Enriquez

Instituto de Química, Universidad Nacional Autónoma de México, Circuito Exterior, Ciudad Universitaria, Mexico City CDMX 04510, Mexico

Prof. Dr. David Morales-Morales

Instituto de Química, Universidad Nacional Autónoma de México, Cd. Universitaria, Circuito Exterior S/N, 15 C.P. 04510, Coyoacán, Ciudad de México, México

Prof. Dr. José Pedraza Chaverri

Department of Biology, Faculty of Chemistry, National Autonomous University of Mexico (UNAM), Mexico City 04510, Mexico

Message from the Guest Editors

In the design and synthesis of new curcumin derivatives and their metal complexes, a fascinating transversal interest has been conveyed in the fields of natural products, organic synthesis, green chemistry, coordination and organometallic derivatives, biochemistry, biological properties, and medicinal chemistry. We are excited to invite contributions to this Special Issue of the *International Journal of Molecular Sciences* dealing with all of these aspects of curcumin and curcuminoid derivatives and their metal complexes, with a special emphasis on the battle against cancer and oxidative stress-associated acute and chronic diseases.

In addition, manuscripts dealing with sustainability topics are also welcome. We hope the contributions of manuscripts will represent a valuable source of updated material regarding this topic for the readers of the *International Journal of Molecular Sciences*. Original articles, comprehensive reviews, communications, etc., are welcome.

Deadline for manuscript submissions:

10 January 2025

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
