**Dr. Mohammed Sabbah**

Department of Nutrition and  
Food Technology, An-Najah  
National University, P.O. Box 7  
Nablus, Palestine

Deadline for manuscript  
submissions:  
**closed (28 February 2020)**

### Message from the Guest Editors

We invite investigators to contribute original research articles as well as review articles that will stimulate the continuing efforts to produce biodegradable/edible materials able to coat and preserve specific food products. We are particularly interested in articles describing new modalities to obtain new biomaterials from renewable biomass sources; preparation of new coatings and wrappings endowed with properties tailored for specific foods; development of new processes and strategies to improve food packaging and shelf life; as well as new insights and challenges in food packaging research, application, and commercialization. Potential topics include, but are not limited to:

1. Developments in polysaccharide-, protein-, and lipid-based biomaterials;
2. Recent advances in structure and characterization of new polysaccharide- and protein-based, as well as composite, biomaterials;
3. Latest technologies for recycling industrial biopolymer by-products into food coatings;
4. Development of specific biodegradable/edible coatings or wrappings;
5. Current marketing aspects of biopolymers as food packaging materials.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
