Cancer: Novel Approaches in the Discovery and Design of Targeted Therapies

Guest Editor

Dr. Morito Kurata

Department of Comprehensive Pathology, Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental University, Tokyo 113-8510, Japan

Deadline for manuscript submissions:

closed (31 May 2022)

Message from the Guest Editor

Dear Colleagues,

Efforts to discover drugs that can cure cancers are continuing. Tyrosine kinase inhibitors, such as imatinib, represent a significant achievement for the treatment of chronic myelogenous leukemia with a BCR-ABL translocation. Comprehensive screening is one promising approach for identifying new oncogenic targets of cancer cell survival. The recent development of CRISPR screening now provides a powerful tool for finding essential molecules relevant to cancers. This Special Issue focuses on studies related to basic strategies and comprehensive screening for molecular targets for cancer cures. Up-to-date review articles and commentaries are also welcome.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
