Carbohydrate-Active Enzymes: Structure, Activity and Reaction Products

Guest Editor:

Prof. Dr. Stefano Benini

Free University of Bozen-Bolzano, Bioorganic Chemistry and Bio-Crystallography laboratory (B2Cl), Bozen-Bolzano, Italy

Deadline for manuscript submissions:

closed (31 October 2019)

Message from the Guest Editor

This Special Issue aims at gathering new research results to broaden our understanding about carbohydrate-active enzymes, their mutants and their reaction products at the molecular level. It focuses on enzymes active in the biosynthesis, modification and degradation of oligo and polysaccharides, and glycoproteins and glycolipids. Authors are invited to submit their original research and review articles.

Keywords

- Biochemistry
- X-ray crystallography
- NMR
- Enzyme engineering
- Directed evolution
- Protein Glycosylation
- Lipid Glycosylation
- Glycosyltransferase
- Glycoside hydrolase
- Polysaccharide lyase
- Carbohydrate esterase
- Oligosaccharide
- Polysaccharide
- Glycoprotein
- Glycolipid
- Structure and function relationship

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
