Computational Studies of Biomolecules

Collection Editors:

Prof. Dr. Christo Z. Christov

Department of Chemistry, Michigan Technological University, Houghton, MI 49931, USA

Dr. Tatyana Karabencheva-Christova

Department of Chemistry, Michigan Technological University, Houghton, MI 49931, USA

Message from the Collection Editors

The current Topical Collection aims to attract high-quality contributions of modeling biomolecular structures, dynamics, functions, and interactions with the potential of interpretation of experimental data and applications in drug design and protein design.

Topics of interest:

- Development and validation of new computational modeling methods;
- Computational studies of proteins' structure– function relationships;
- Computational investigations of nucleic acids' structure–function relationships;
- Modeling of protein and nucleic acid dynamics;
- Protein docking;
- Protein-ligand interactions;
- Nucleic acid-ligand interactions;
- Protein design;
- Computational enzymology–enzymatic reaction mechanisms:
- Protein homology modeling.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
