Deadline for manuscript
submissions:
closed (15 July 2023)

Message from the Guest Editor

Dear Colleagues,

I am editing a Special Issue on Diabetic Kidney Disease for the *International Journal of Molecular Sciences* (Impact Factor 5.924). Diabetic kidney disease is the number one cause of chronic kidney disease and end-stage renal failure. I would like to invite you to submit a research or review article to the journal for peer-review. This Special Issue will include papers investigating mechanisms to reduce albuminuria, fibrosis, and inflammation in diabetic kidney disease, as well as novel urinary biomarkers. Furthermore, experimental in vitro and in vivo studies and clinical studies examining potential new approaches to attenuate kidney dysfunction are welcome. Clinical submissions with biomolecular experiments or pathological research with case sample data will be considered.

Please do not hesitate to contact me if you have any questions at lharris@lsuhsc.edu.

Regards,

Prof. Dr. Lisa M. Harrison-Bernard

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
