Deadline for manuscript
submissions:
closed (22 June 2018)

Message from the Guest Editor

Dear Colleagues,

In this Special Issue on “The (Microbiota)–Gut–Brain Axis: Hype or Revolution?” we invite researchers to submit original research and review articles on the microbiota–gut–brain axis, including but not limited to the following topics:

- gut–brain signaling mechanisms underlying gastrointestinal symptom generation and perception in health and functional gastrointestinal disorders
- gut–brain signaling mechanisms underlying the control of appetite and feeding in health and disease
- influence of nutrient-related gut–brain signals on affective and cognitive processes in health and disease
- influence of gut microbiota composition and function on psychobiological processes in health and disease, and identification of the microbiota–gut–brain signaling mechanisms underlying these relationships

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
