

Targeting Group 2 Innate Lymphoid Cells (ILC2) in Disease: Central Regulators in Immunity, Tissue Homeostasis, and Physiology

Guest Editor:

Dr. Jörg Hermann Fritz

Department of Microbiology and Immunology, McGill Research Center on Complex Traits (MRCCT), McGill University, Montreal, QC H3G 0B1, Canada

Message from the Guest Editor

This Special Issue will focus on the integration of the role of ILC2 in biological processes and molecular and cellular events as they relate to the regulation of the immune system, tissue homeostasis, and physiology during health and disease.

We are seeking novel research and/or review articles highlighting

Deadline for manuscript submissions:

closed (30 June 2019)

- ILC2 development,
- Molecular regulation of ILC2 and its impact on immunity and disease,
- ILC2 diversity and functional polarization on immune challenge and during disease,
- Redundancy between ILC2s and Th2 cells,
- Cellular interaction of ILC2 (hematopoietic and non-hematopoietic cell lineages),
- ILC2 function in health and disease,
- ILC2 as drug targets;

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
