Deadline for manuscript
submissions:

closed (31 December 2018)

Message from the Guest Editor

This Special Issue is devoted to the age-related changes, associated with the process of immunosenescence, in inflammatory and oxidative stress states of the organism, in the cellular communication systems and in the signaling pathways. Moreover, how these mechanisms are modified in pathological situations and how they could accelerate the aging process will be commented on in this issue. In addition, the modulation mechanisms of the immunosenescence used by subjects reaching high longevity as well as the effectiveness of life style strategies to slow down these mechanisms, will be also considered.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
