

## Inflammatory Tissue Reactions to Biomaterials

Guest Editors:

**Dr. Mike Barbeck**

Department of Ceramic  
Materials, Chair of Advanced  
Ceramic Materials, Institute for  
Materials Science and  
Technologies, Technical  
University of Berlin, Berlin,  
Germany

**Dr. Ole Jung**

Clinic and Policlinic for  
Dermatology and Venereology,  
University Medical Center  
Rostock, 18057 Rostock,  
Germany

Deadline for manuscript  
submissions:

**closed (31 May 2022)**

### Message from the Guest Editors

The regulatory role of the immune system in maintaining tissue homeostasis and restoring its functionality, when disturbed due to trauma or injury, has become evident in recent years. The polarization of macrophages—one of the main constituents of the immune system—into the pro-inflammatory or anti-inflammatory phenotype has great repercussions for cellular crosstalk, as well as the subsequent processes needed for proper tissue regeneration, such as angiogenesis. In certain scenarios, the damaged tissue requires the placement of both natural and synthetic biomaterials to facilitate the healing process. The immune response of the host organism to the biomaterial, which is of an exogenous nature, might determine its fate, leading either to active regeneration or its failure. Therefore, various strategies have been employed, such as the modification of structural/chemical features or the incorporation of bioactive molecules, to tune the interplay with the immune cells.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
