

A New Paradigm for Chaperone Proteins in Health and Disease

Guest Editor:

Dr. Kurt Ming-Chao Lin
National Health Research
Institutes, Zhunan, Taiwan

Deadline for manuscript
submissions:
closed (15 November 2022)

Message from the Guest Editor

Dear Colleagues,

For our Special Issue, entitled “A New Paradigm for Chaperone Proteins in Health and Disease”, we invite original research and review articles on topics related to new findings regarding the roles of chaperone proteins in all areas of biomedicine. We especially encourage the submission of reports on new cellular or animal models, as well as studies demonstrating the therapeutic potential of chaperones as molecular targets in the treatment of human diseases.

- Hsp60
- Hsp10
- mitochondrial chaperonins
- immune-regulatory

Please feel free to contact me or Vera Cao(vera.cao@mdpi.com) if you are interested in contributing papers to this special issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
