Deadline for manuscript
submissions:

closed (31 July 2021)

Message from the Guest Editor

Infectious diseases still affect the health of many people today. The morbidity and mortality rates associated with these diseases are considerable. However, it is now recognized that these infections particularly affect some individuals while sparing others. Significant progresses have been made in recent years for each of these diseases. These important changes essentially concern:

 Patient management (new methods for diagnosis based on molecular biology tests)

 Genetic analysis

 Identification of susceptible loci

 Deciphering the pathogenic processes

 Identification and characterization of biomarkers

 Development of new drugs

The submission of original research articles or up-to-date review articles, and commentaries related to these (non-exhaustive) topics is encouraged.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. José L. Quiles

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
