Message from the Guest Editor

Dear Colleagues,

Neurodegenerative diseases, such as Alzheimer's and Parkinson's, are an enormous health problem in Western countries with aged populations and an increasing problem in former third world countries, such as China, where life expectancy has started to increase. Current drug therapies are only symptomatic; they cannot block or delay the disease progression that gradually leads to more severe symptoms and eventually to death. Therefore, there is an urgent need for novel therapies that have disease-modifying properties.

The aim of this Special Issue "Pharmacology of Neurodegenerative Diseases" is to stimulate discussion about the current and promising drug targets for neurodegenerative diseases, different pharmacological approaches and the benefits and limitations of the models of neurodegenerative diseases. This Special Issue will accept articles from molecular pharmacology to clinical pharmacology that focus on novel approaches to develop pharmacological therapies for neurodegenerative diseases.

Dr. Timo T Myöhänen

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
