Role of Phosphodiesterase in Biology and Pathology 2.0

Guest Editors:

Prof. Dr. Mauro Giorgi

Department of Biology and
Biotechnology “Charles Darwin”,
Sapienza University of Rome, P.le
A. Moro 5, 00185 Rome, Italy

Dr. Manuela Pellegrini

Institute of Biochemistry and Cell
Biology, IBBC-CNR, via E.
Ramarini, 32, 00015
Monterotondo Scalo, Rome, Italy

Prof. Dr. Mara Massimi

Department of Life, Health and
Environmental Sciences,
University of L'Aquila, Via Vetoio,
67100 L'Aquila, Italy

Message from the Guest Editors

The Special Issue “The Role of Phosphodiesterases in Biology and Pathology 2.0” will publish outstanding articles on the role of 3',5' cyclic nucleotide phosphodiesterases in health and disease. Review articles, commentaries and experimental papers are welcome. These phosphodiesterases are ubiquitous enzymes that hydrolyze cAMP and cGMP second messengers in a temporal, spatial and integrated manner, according to their expression and localization inside the cell. Because cAMP and cGMP signaling regulate a huge variety of cell functions, phosphodiesterases are involved in many aspects of cell biology. The understanding of cell signaling pathways in which phosphodiesterases are involved is thus of great importance in cell physiology and human pathology.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
