lab, La Trobe Institute for
Molecular Science, La Trobe
University, Bundoora, VIC 3083,
Australia

Deadline for manuscript
submissions:

closed (31 August 2020)

Message from the Guest Editor

This Special Issue of *IJMS* will focus on the advances in the field of T cell immunity over the last 10 years, their impact on our overall understanding of T cell immunity and how this can inform the development of new therapeutics. This collection will include aspects of how T cells can recognise and fight viral and bacterial infections, the role T cells play in cancer and allergy (e.g. food, drugs, etc.), and the discovery of either new T cell subsets or novel roles for previously known T cell subsets. We are seeking novel research in the field of T cell immunity or review articles focused on the keywords below dedicated to developments from the last 10 years and how these have changed or enhanced our understanding of T cells. Our aim is for this Special Issue to shine light on multidisciplinary research that examines T cell immunity under a different lens.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
