Selected Papers of Workshop "Osteoarthritis: Novel Molecular Determinants Revolutionize Our Understanding of the Disease Pathology"

Guest Editors:

Prof. Dr. Susanne Grässel

Department of Orthopedic Surgery, Exp. Orthopedics, ZMB/Biopark 1, University of Regensburg, 93053 Regensburg, Germany

Prof. Dr. Henning Madry

Center of Experimental Orthopaedics, Saarland University Medical Center, Kirrbergerstr. Bldg 37, D-66421 Homburg, Saar, Germany

Deadline for manuscript submissions:
closed (15 January 2021)

Message from the Guest Editors

Clinical symptoms of OA appear in more than 10% of the world population and affect almost everyone over the age of 65. For patients, the major problem is disability, resulting from joint tissue destruction and pain. OA is characterized by its extraordinary interpatient variability both clinically and structurally. This heterogeneity is considered as a major reason associated with the complexity of OA and the ongoing difficulties to identify one-size-fits-all therapies. The development of targeted therapies against the osteoarthritic processes in cartilage, synovium or bone will, therefore, require an understanding of the state of these joint tissues at the time of the intervention.

Here, we want to elucidate novel concepts and hypotheses regarding disease progression, which are relevant for understanding underlying molecular mechanisms as a prerequisite for future therapeutic approaches.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. José L. Quiles

Department of Physiology,
Institute of Nutrition and Food
Technology “Jose Mataix”,
Biomedical Research Center,
University of Granada, Avda.
Conocimiento s/n, 18100 Armilla,
Granada, Spain

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
