

Special Issue

Molecular Genetics and Breeding Mechanisms in Crops

Message from the Guest Editor

With the continuous progress of biotechnology, rapid development has been seen in molecular genetics and breeding theories, methods, as well as the creation of excellent germplasms. In order to promote academic exchange on the latest trends and achievements of molecular genetics and breeding in crops, this Special Issue will focus on molecular genetics and breeding mechanisms in crops with the aim of promoting the joint discussion of the latest research dynamics and directions and find opportunities for collaboration in this field. All original research papers and reviews are welcome for submission to this Special Issue. Contributions in this Special Issue may include: studies on biological and abiotic stress resistance of crops, advances in crop genomics and proteomics, strategies for the combination of crop molecular breeding and conventional breeding, the and research and development of new technologies for crop germplasm innovation.

Guest Editor

Prof. Dr. Shaozhen He

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
