

Special Issue

Musculoskeletal Development and Skeletal Pathophysiologies 2.0

Message from the Guest Editor

We are excited to announce a Special Issue of the *Journal of International Molecular Sciences* that focuses on Musculoskeletal Development and Skeletal Pathophysiologies. Musculoskeletal problems are one of the leading reasons for physician visits each year. As such, diseases such as osteoporosis and osteoarthritis impart a major social and economic burden and are associated with significant morbidity and mortality. This burden will grow as the population ages, unless treatment modalities are expanded; thus, new knowledge is needed to provide a better understanding of musculoskeletal generation and degeneration, and to identify new therapeutic approaches. We are seeking submissions of original research articles as well as manuscripts that review a relevant field of research.

Guest Editor

Dr. Elizabeth W. Bradley

1. Department of Orthopedic Surgery, University of Minnesota, Minneapolis, MN 55455, USA
2. Stem Cell Institute, University of Minnesota, Minneapolis, MN 55455, USA

Deadline for manuscript submissions

closed (15 October 2023)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
