

Special Issue

Bone Biomaterials Research and 3D Spheroid Culture Systems in Osteogenesis

Message from the Guest Editor

The interaction of bone biomaterials and 3D spheroid culture techniques represents a groundbreaking approach, offering unique insights into the complex interplay between cells, biomaterials, and their microenvironment during bone regeneration. This Special Issue invites researchers to contribute your original work, spanning from material design and fabrication processes to in-depth investigations into the molecular mechanisms governing osteogenic differentiation within 3D spheroid cultures. Researchers from diverse backgrounds are invited to submit their cutting-edge contributions, fostering a vibrant exchange of ideas and accelerating the translation of discoveries into practical applications. Together, let us unravel the mysteries of bone biomaterials and 3D spheroid culture systems, paving the way for transformative developments in the realm of osteogenesis research.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Inorganic Chemistry)
