

## Special Issue

# The Role of Estrogen Receptors in Health and Diseases

### Message from the Guest Editors

This Special Issue of IJMS is calling for original work or comprehensive review articles on the role of ER $\alpha$ , ER $\beta$ , and GPER-1 (A) in classical estrogen-dependent tissues of the female reproduction system, such as tumors of the ovary and endometrium or benign female reproductive disorders such as endometriosis or the polycystic ovary syndrome and (B) also addresses novel insights in the function of these receptors in the physiology and pathobiology of other tissues, which have classically not been considered to be estrogen-responsive. In addition to new aspects of their physiological function, novel insights in the role of these receptors in various diseases, elucidating putative tissue-specific pathways, have the potential to identify potential new biomarkers or therapy targets. Suitable topics include but are not limited to:

The role of ER $\alpha$ , ER $\beta$ , and GPER-1 in the pathogenesis of diseases of tissues expressing at least one of these receptors;

Novel insights in the physiological function of estrogen receptors in tissues expressing one or more of these receptors.

---

### Guest Editors

Prof. Dr. Oliver Treeck

Department of Gynecology and Obstetrics I, University Medical Center Regensburg, 93053 Regensburg, Germany

Dr. Maciej lek Skrzypczak

Second Department of Gynecology, Medical University of Lublin, Lublin, Poland

---

### Deadline for manuscript submissions

closed (20 December 2024)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
