

Special Issue

Musculoskeletal Injuries and Conditions: From Pathophysiology to Novel Therapeutic Approaches

Message from the Guest Editor

This Special Issue aims to focus on the pathophysiology, diagnosis, and treatment of musculoskeletal injuries and conditions affecting the joints, cartilage, bones, tendons, and ligaments. We welcome the submission of original research and reviews that explore molecular mechanisms, inflammation, tissue degeneration, fibrosis, and biomechanical alterations. Submissions addressing innovative diagnostic tools, regenerative medicine, molecular and cellular therapies, tissue engineering, and translational research are highly encouraged. Studies on preclinical models, biomarkers, and cutting-edge imaging techniques to elucidate the molecular mechanism of diseases are also of interest. By highlighting multidisciplinary approaches, this Special Issue aims to bridge the gap between diseases and molecular mechanisms, driving progress in the formation, prevention, management, and treatment of musculoskeletal conditions. Researchers are invited to contribute to this Special Issue to help advance this dynamic field.

Guest Editor

Dr. Jai-Hong Cheng

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
