

Special Issue

Communication and Interaction between Plant Roots and Rhizosphere

Message from the Guest Editor

The communication and interaction between plant roots and rhizosphere is very important for aboveground plant growth, plant health and fitness. Rhizosphere microbes are involved in root-soil interactions, while the microbe-microbe and soil-microbe interactions in rhizosphere are also regulated by the roots. With the Special Issue titled “Communication and Interaction between Plant Roots and Rhizosphere”, we aim to (1) Communication and interaction between plant roots and rhizosphere bacteria; (2) Communication and interaction between plant roots and rhizosphere fungi and (3) Bacteria, fungi present in plant nodules. Not being limited to the above topics, other topics of research concerning the communication and interaction between plant roots and rhizosphere are also welcome. Since IJMS is a journal of molecular science, thus pure clinical studies will not suitable for our journal. But clinical or pure model submissions with biomolecular experiments are welcomed.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles

Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
