Molecular Biomarkers in Cardiovascular Disease

Message from the Guest Editors

In recent years, the incidence and onset age of cardiovascular disease have advanced. Cardiovascular disease has become an important problem for cardiovascular health. In order to strengthen the prevention and treatment of cardiovascular diseases, this Special Issue “Molecular Biomarkers in Cardiovascular Disease” welcomes original research articles, reviews, methods, and other article types focused on (but not limited to) the following areas:

- Cardiovascular disease;
- Biomarkers;
- Heart failure;
- Takayasu arteritis;
- Vasculitis;
- Vascular damage;
- Diagnosis;
- Therapy.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
