

## Special Issue

# Signaling Pathway of Immune Cells and Immune Disorder

### Message from the Guest Editor

Immune cells are regulated and maintained by numerous signaling pathways in response to various stimuli. An impaired signaling pathway of immune cells triggers an imbalance of the immune system, leading to a variety of immune disorders, such as infectious disease, allergic disease, and autoimmune disease. This Special Issue focuses on the cellular or molecular mechanism of the immune disorder associated with an impaired signaling pathway.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Inorganic Chemistry)
