

Special Issue

Effective Mechanisms of Plant Bioactive Essential Fats and Oils

Message from the Guest Editors

This Special Issue aims to bring together these plant derivatives and is soliciting manuscripts pertaining to original research, mini and full reviews, short communications, as well as perspectives, which address any aspect of essential and fats oils from plant. Submissions are invited that include, but are not limited to:

- Biosynthesis of fat oils in the plant,
- Biosynthesis of essential oils in the plant,
- Role of fat oils in the plants,
- Role of essential oils in the plant,
- Fat oils mechanism of action,
- Essential oils mechanism of action

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
