

## Special Issue

# Biomarkers for Early Detection of Cancer: Molecular Aspects

### Message from the Guest Editors

According to the World Health Organization, cancer is the second leading cause of death in the world. Within 10 to 15 years, cancer will overtake cardiovascular disease as the leading cause of death. Recently, a number of blood-based cancer assays that detect protein, microRNA, circulating DNA, and methylated DNA biomarkers have been developed. Unfortunately, most are specific to late-stage cancer. This Special Issue provides insight and discusses recent advances in molecular, proteomic, and metabolic markers for the early detection of cancer. Novel approaches in the early detection of different cancer types will also be described for their potential in the screening and surveillance of cancer for improved prognostic value, survival, and quality of life.

### Guest Editors

Dr. Paramjit S. Tappia

Asper Clinical Research Institute, St. Boniface Hospital, Winnipeg, MB R2H 2A6, Canada

Dr. Bram Ramjiawan

1. Asper Clinical Research Institute, St. Boniface Hospital, Winnipeg, MB R2H 2A6, Canada

2. Department of Pharmacology and Therapeutics, Max Rady College of Medicine, University of Manitoba, Winnipeg, MB R3E 0T6, Canada

### Deadline for manuscript submissions

closed (31 May 2022)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
