

## Special Issue

# A New Paradigm for Chaperone Proteins in Health and Disease

### Message from the Guest Editor

For our Special Issue, entitled “A New Paradigm for Chaperone Proteins in Health and Disease”, we invite original research and review articles on topics related to new findings regarding the roles of chaperone proteins in all areas of biomedicine. We especially encourage the submission of reports on new cellular or animal models, as well as studies demonstrating the therapeutic potential of chaperones as molecular targets in the treatment of human diseases.

- Hsp60
- Hsp10
- mitochondrial chaperonins
- immune-regulatory

Please feel free to contact me or Vera Cao([vera.cao@mdpi.com](mailto:vera.cao@mdpi.com)) if you are interested in contributing papers to this special issue.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
