Feature Papers in Big Data

Guest Editor:

Dr. Weitian Tong

Department of Computer
Science, Georgia Southern
University, Statesboro, GA 30458,
USA

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editor

This Special Issue in *Informatics* welcomes papers in the field of big data. The scope includes but is not limited to data capture and storage; search, sharing, and analytics; big data technologies; data visualization; architectures for massively parallel processing; data mining tools and techniques; machine learning algorithms for Big Data; cloud computing platforms; distributed file systems and databases; and scalable storage systems. New submitted papers must be pre-peer-reviewed by the Editorial Board. If your paper is well prepared and approved for further publication, you might be eligible for discounts for your publication.

Message from the Editor-in-Chief

Informatics (ISSN 2227-9709) is an international, peer-reviewed, open access journal, which publishes original theoretical and empirical work on the science of informatics and its application in multiple fields. Our concept of Informatics includes technologies of information and communication as well as the biological, social, linguistic and cultural changes that initiate, accompany and complicate their development.

Informatics publishes regular research articles, reviews and short notes. There is no restriction on the length of papers, and we encourage researchers to publish their theoretical and empirical results in as much detail as possible. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [dblp](#), and [other databases](#).

Journal Rank: CiteScore - Q1 (*Communication*)
