Message from the Guest Editors

Dear Colleagues,

Social media and mobile technologies are important new tools in healthcare education, both to assist healthcare professionals learn and maintain their craft, and for education of patients and families. Social media, particularly linked with mobile technologies, is being used to support healthcare professionals in higher education and maintaining professional development in the workplace. They are also becoming important as tools for educating patients and their families in relation to healthcare needs. This Special Issue seeks submissions offering research results and case studies that advance the state of the art of the methodologies aimed at the application of social media or mobile technologies for healthcare education.

Message from the Editor-in-Chief

Informatics (ISSN 2227-9709) is an international, peer-reviewed, open access journal, which publishes original theoretical and empirical work on the science of informatics and its application in multiple fields. Our concept of Informatics includes technologies of information and communication as well as the biological, social, linguistic and cultural changes that initiate, accompany and complicate their development.

Informatics publishes regular research articles, reviews and short notes. There is no restriction on the length of papers, and we encourage researchers to publish their theoretical and empirical results in as much detail as possible. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q2 (*Computer Science, Interdisciplinary Applications*) / CiteScore - Q1 (Communication)
